Thu, Apr 27, 2017 at 7:27 AM

You are correct. I look forward to meeting next week.

Best,
Michael

Thanks for sending. I have a feeling this map won't be sufficient for Mr. Dawson & he will push the tree posting. I'm working on getting collateral prepared (detailed tree by tree review, pipeline maintenance & installation dates for specific areas in Lafayette, etc) and I'll be speaking with Keadjian this morning about getting GOST requests in asap.

Should I send Mr. Dawson an email today or tomorrow, drafted by Keadjian, requesting a meeting with him next week?

Mr. Dawson,

Apologies that this email is coming later than Wednesday afternoon. As we discussed, the City of Lafayette requested an updated map from PG&E – we received it today; please find it attached. PG&E is required to contact each individual property owner affected by the CPSI program. This should be taking place in the near term. For specific questions on how PG&E will be moving forward with the project, please contact PG&E's Whitney Floratos (925) 494-8962 or whitney.floratos@pge.com<mailto:whitney.floratos@pge.com>.

This past Monday night the City Council directed staff to request a PG&E representative attend an upcoming council meeting to speak about the CSPI program. We have reached out to PG&E and will advise when the City Council meeting date has been determined.

Best regards,

Greg Wolff

Hi Greg,

Hope you're well. Checking on your promise to get me information by today re: my request for the updated map of the 272 trees scheduled for removal.

I had several other questions in my email from April 21 regarding if the trees will be tagged before removal and timeframe for when this process will begin. I would appreciate an answer on this as well.

Thanks for your time.

Respectfully,
Michael

Greg,

Thank you, I appreciate your time helping me.

Just to clarify, PG&E told me they were not releasing their maps and that the map they have now is not for "public consumption". Is it your understanding that they are providing you the map next week? I can imagine the city supports full disclosure, so I'm anxious to hear the outcome of your discussions.

Also, do you know if PG&E will be tagging the trees for removal in a visible way? And could you provide me with any timeframes they have discussed regarding notification to homeowners and eventual tree removal?

Again, thank you for your assistance.

Happy weekend,
Michael

Mr. Dawson,

I submitted the request for an updated map and PG&E has acknowledged receipt of the request. They have routed it internally and are working on the request. We should have an update by the middle of next week.

Thank you for checking in. I'll touch base with you when I hear something, but at the latest Wednesday afternoon.

Thank you,

Greg Wolff

Hi Greg,

I'm following up on our Monday email exchange. Do you have an update on the PG&E tree map?

Thanks for your help,
Michael

Mr. Dawson,

Thank you for your email. It was nice speaking with you regarding the matter last week.

I will look into your request, liaise with PG&E and follow up with you later this week.

Subject: Request for updated PG&E tree removal map

Dear City Officials,

On March 27, the City Council authorized the City Planner to sign a Letter of Agreement with PG&E regarding the removal of 272 trees on public & private property. Can you please provide me with or publish on the city website a map of the trees to be removed? Currently on the city website there is an outdated map of the 1000 trees originally considered (attached here).

PG&E has refused a request for this map, stating they only will share house-by-house data. I believe in the spirit of open transparency the map of publicly/privately owned trees, many protected, should be made available.

Thank you in advance.

With best regards,
Michael Dawson
